Real Estate & Construction Insurance: *Basics, Tips, and Traps*

There are a variety of insurance coverages that apply to real estate transactions and construction projects, many of which are driven by owners, lenders, and other third parties. Lawyers need to be aware of these issues to avoid gaps in coverage and to know where to turn in the event of a loss. The speakers will address the coverages often required in acquisitions and dispositions, development deals, construction contracts, and leases, how to avoid gaps in coverage, and how best to protect clients facing coverage disputes.
